

06/02/12

Bury Farm would like to offer our sincere apologies that the Saturday evening event was cut short.

As explained on the night, this was due to a fault on the generator which was brought in especially to service the event.

We have a duty of care to ensure the safety of the horses and riders, and with the power being intermittent, it would have been putting both at risk to have continued with the rest of the evening, as I hope you can all appreciate.

We appreciate that you have supported Bury Farm by attending the show and as it finished 1 hour prematurely, we would like to offer those who purchased tickets free entry to the next event when you produce your tickets at reception.

Thank you for understanding in this matter,

Bury Farm Equestrian Village
